

Aston Martin V8. Series 3. Manual.

£89950

This delightful V8 Manual is in totally original condition, as it left the factory in 1978. Finished in Aston Martin Raven Black with Red hide interior and manual gearbox.

The current owner purchased this car in 2019 from the previous owner of more than 30 years. With a genuine 65,000 miles from new the car has always been thoroughly maintained on a totally no expense spared basis. Indeed, it has never failed or even had an advisory on its annual MOT testing. Which even now, being over the 40 year threshold for MOT's, it has continued with yearly.

The car is complete with a very comprehensive history file which includes, all service and maintenance invoices, 3 fully stamped service books going back to 1978, its original hand book, original jack and tool kit, original Aston Martin warranty card and even the original Pioneer radio cassette player instruction manual (which is still fully functional). She has both sets of keys, an indoor car cover plus battery trickle charger.

This is a rare opportunity to purchase a totally original, matching numbers, un-molested, highly maintained piece of Aston Martin history.
